The Transformation is Amazing

PVC Column Wraps

If you've already met the structural requirements of your project, Fypon® PVC column wraps can add an elegant finishing touch. Designed to install easily around an existing structural support, Fypon column wraps allow you to add the sophistication of traditional columns near the end of your project. So whether you need to add a special touch to a new job or cover an existing eyesore, column wraps from Fypon are perfect for your next project. **For installation instructions, please visit www.fypon.com.**

How to Use This Section

For ease of use, the product groupings in this section of the catalog are organized by size, from smallest to largest. Where applicable, special order options are referenced with the product. Each product chart includes product images, dimensional data and part numbers to help specify, source and sell Fypon® PVC column wraps.

How to Order

PVC Column Wraps

PVC column wraps are non-structural and simply wrap around an existing 4"x4" treated wood post or other structural support. Column wraps come in a complete kit that includes the shaft, cap, base, installation cleats, hardware, installation instructions and a tube of adhesive. Choose between various tapered and non-tapered styles with a height that meets or exceeds your height requirement. Plain column wraps can be trimmed to any height, and all other styles are trimmable from the bottom of the shaft up to 3".

PVC Column Wrap Accessories

Non-tapered column wraps come with the box cap and base. Tapered column wraps come with the Craftsman cap and base. Eight additional cap and base styles are available and can be special ordered separately. Simply choose a style and specify the type (tapered or non-tapered) and the nominal size of the column wrap you are matching. Most of the caps and bases are constructed of PVC and ship in four separate pieces with pre-mitered corners, unless otherwise noted.

Special Order Products

Some products shown in this catalog include special order options. This means the product is available in additional sizes or with additional accessories. Throughout this section, special order part numbers are marked with an asterisk (*). Where applicable, additional special order options are listed with the product.

Devcon*		PVC Adhesive and Accessories
Product Description	Contents	Part Number
Devcon® TrimBonder Adhesive	(1) 400ML Tube Adhesive; (1) Mixing Nozzle	85256
Dispensing Gun	(1) Dispensing Gun for 400ML Adhesive Cartridge	85323
Mixing Nozzle	(1) Mixing Nozzle for 400ML Adhesive Cartridge	85257

Flexible Positioning PVC Column Wraps

Fypon column wraps allow for flexibility in positioning. The design features installation cleats on the exterior of the shaft, providing ample room around the support post. This allows for positioning adjustments to align several columns in a row or to allow for positioning close to the porch edge. Also, because the column wrap does not come in contact with the structural post, the integrity of the wrap is not dependent on the support. If the structural post starts to twist or warp, the column wrap will not be affected.

**Flexible positioning
around support post**

Before you order, you'll want to measure to make sure you have enough clear distance from the support post to the edge of the porch. The needed space is dependent on the style of column. You will need more space for tapered columns than non-tapered due to the larger base.

Allow adequate distance when choosing wrap width

3/8" Non-Tapered Column Wraps

Semi-Assembled Economy Plain with Box Cap & Base

Special Order Options:

- 36"-144" Height
- 6"-24" Width
- Alternate Cap & Base (See Page 11)

Alternate Cap & Base Styles

For PVC Column Wraps

Although each column wrap kit ships with a standard cap and base, these additional styles may be special ordered separately. Simply choose a style and specify the type (tapered or non-tapered) and the nominal size of the column wrap you are matching.

Box Cap & Base

Ships standard with all non-tapered column wrap kits. Cannot be used with tapered column wraps. Ships in two L-shaped halves.

Craftsman Cap & Base

Ships standard with all tapered column wrap kits.

Greek Cap & Base

Italian Cap & Base

Mission Cap & Base

Modern Cap & Base

Prairie Cap & Base

Roman Cap & Base

Tuscan Cap & Base

Tuscan Cap & Base are high-density polyurethane.

Victorian Cap & Base

Neck Mould Accessory

Additional Sizes:

Special order options also include additional column wrap heights and widths. See each product page in this section of the catalog for additional sizes available with each product.
